OUR MOTIVATION FOR **LEADERSHIP EMPOWERMENT PROGRAMS**

The world is filled with followers, supervisors, and managers but very few leaders.

History has produced a legacy of distinguished and outstanding leaders who have impacted the world and furthered the development of humanity. They were both men and women, rich and poor, learned and unlearned, trained and untrained. They came from every race, color, language, and culture of the world. Many of them had no ambition to become great or renowned. In fact, most of the individuals who have greatly affected humanity have been simple people who were thrust into circumstances that demanded the hidden qualities of their characters, or they were driven by personal, passionate goals.

We believe and are sure that there is leadership potential in every person created by God. Despite this universal latent ability, very few individuals realize this power and fewer have responded effectively to the call. As a result, our nations, societies, communities, churches and families are suffering from an astounding leadership void. All over the world, questions are being asked on a daily basis such as; Where are the genuine leaders? Where are the individuals who are willing to take responsibility for the present situation and conditions of their people? Who is willing to accept the challenge, to face it head-on with integrity, character, and a commitment to execute righteous judgment for a better world? Our homes are crying out for leadership. Our youths are begging for leaders. The church is suffering from an absence of leaders. Our governments are being undermined because of lack of leaders. Our communities and associations need positive role models, our children need fathers and mothers and our world needs direction.

The youths have been made to believe that they are the leaders of tomorrow, but how to become these leaders when the tomorrow comes, remains a herculean task for many. Those that led yesterday are the same ones leading today and still determined to lead tomorrow. The youths have been left at the mercy of circumstance without leadership or direction. There is a big leadership gap in every aspect of our lives today. Many youths are depressed and disappointed due to the fact that they hardly find the right person to lead them and bring out the best in them. Mentorship is a strange culture in our society today due to the high rate of insecurities displayed by most of our leaders and our predecessors. Our youths today are still making the same and even worst mistakes that our forefathers and fathers made due to lack of mentorship. Many are injured, beaten and battered by the challenges of life. Many dreams have been shattered, visions have been aborted and forfeited, the life of hopelessness and aimlessness has taken hold of many of our young people today.

The spirit of insecurity, low self-esteem, poor self-concept, and devalued self-worth always will focus on self-preservation and self-protection—a defensive perspective in life. This spirit of insecurity breeds the attitude of fear, suspicion, and distrust. These words describe the mind-set of many of the leaders serving in our governments, political parties, corporations, departments, religious organizations, churches, families, and civic organizations.

The Ambs. J. D. Jydson through the ROYMMI School of Leadership and Ministry has been mandated through the Inspiration of the Holy Spirit to set the pace for the right Leadership paradigm shift and positively change the narratives that have robbed us of the abilities to live life to the fullest and to fulfill our leadership potentials.

OUR MOTIVATION FOR LEADERSHIP EMPOWERMENT PROGRAMS

GOALS OF OUR LEADERSHIP EMPOWERMENT PROGRAMS

- 1) It is our responsibility as steward of this present age to face the challenge of developing, training, releasing, and reproducing a generation of leaders who can secure the future of our children and their children.
- 2) Our Leadership Training Programs are designed to contribute solutions to these and many more challenges. And also inspire Families, Churches, Communities and the World to respond to the call of destiny and responsibility and to awaken and develop the potential leaders within them.
- 3) By attending our Leadership programs and reading our leadership materials, our mentees become responsible for hearing the cry for leaders in our nation, city, community, church, and family.
- 4) These programs provide our mentees and participants with the opportunity to help awaken and enhance the potential leader hidden within you so that they can develop, and refine their leadership qualities and use them to benefit the world, their nation, societies, community, church and family.
- 5) We create moments and convert them into movements that make tangible, meaningful differences in the lives of people around us.

“It marks a big step in your development when you come to realize that other people can help you do a better job than you could do alone.” Andrew Carnegie

Iron sharpens iron; so a man sharpens the countenance of his friend [to show rage or worthy purpose]. **Proverbs 27:17** -AMP

Our signature events are The LEAD Conference and the LEAD CEO Roundtable, which are quarterly gatherings and the Annual Arewa Leadership and Economic Summit (ALES) all of which bring ministry, societal and marketplace expertise together. Dynamic speakers and key topics challenge our Participants to grow and become catalysts for change. And our mission goes beyond events with resources available year-round, and programs that inspire, equip, and connect Ministry Leaders, Social Change Agents and business leaders, and the next generation.

It's all About Leadership With a Higher Purpose

When you see the possibilities for something bigger than yourself...when you understand your place in making a better world... when you get the tools and guidance you need to grow... when you're encouraged and energized to take that next step in your journey... you'll be ready to embrace the call to be a true leader. You'll show the way forward and bring others along with you. And you'll create moments and movements that make tangible, meaningful differences in the lives around you.

THE OTHER 2 SIGNATURE EVENTS OF OUR LEADERSHIP EMPOWERMENT MANDATES

2) AREWA LEADERSHIP AND ECONOMIC SUMMIT (ALES)

Northern Nigeria is one region highly endowed both in terms of human and natural resources, yet remains the region that is plagued by all manners of natural and man-made challenges. The region is gradually becoming a barren land that makes life significantly difficult. Poverty, illiteracy, banditry and terrorism have all headquartered in the region. Nothing good easily survives and flourishes in the region. Companies, businesses, and churches find it difficult to be established and grow to their full potentials. Majority of the people in the region are consumers and followers. Even the educated find it difficult to pioneer businesses, companies, ministries and other impact making organization. And so, the needs for change towards a better Northern Nigeria is alarming.

Yet these same people from Northern Nigeria flourish in other places and other nations of the world. Man's primary assignment from God is to have dominion on earth, but it is a mirage in Northern Nigeria. But no matter the challenges, we still have the God-given mandate to have dominion over all the works of His Hand.
